## Skills

Customer service	Working on a team
Working with children and parents	Event Coordination
Computer literacy	Technical repair and maintenance
(Both Mac OS and Windows)	

## Work History

**Counselor's Assistant**, 07/2016 to 07/2016

**Concord Recreation** – Concord, MA

At the Concord Recreation Summer Camp, I assisted in bringing children between the ages of three and four to their daily activities and assisting them in whatever they needed, as well as making sure that the classroom was clean and ready to be used. I did not receive pay for this work, and instead received community service hours as a requirement for graduation at Concord Carlisle High School.

**Farmhand**, 06/2016 to 08/2016

**Marshall Farms** – Concord, MA

At Marshall Farms, I worked a part-time shift three to four days a week. My main duties included picking a variety of fresh fruits and vegetables in the fields, then transferring them to Marshall Farm's locally grown farm stand. Most products at Marshall Farms were created on the farm, including animal products such as eggs and cheese from animals raised in sustainable and cruelty-free conditions.

**Cashier**, 09/2017 to 09/2018

**Crosbys Market Concord** - Concord, MA

I worked as a part-time cashier and in customer service at the Concord brand of Crosby's supermarket both after school and on the weekends, usually in 4-6 hour shifts. At the market, I learned the cashiering system as well as extensive personal service and customer relations skills.

**Concord Market** - Concord, MA

I worked part-time in all aspects of the market in order to both prepare it for opening and maintaining it afterward. Before opening, my job consisted of organizing the shelving and labeling system of the market, and preparing the items for stocking (pricing, organization, etc.). After the opening, I was involved in

almost every department in the market, with training in cashiering, baked goods, prepared food, deli, and produce.

## **Activities**

**Fencing Team** - I am captain of the school fencing team, and fence varsity saber. Our team was state champions in the 2018-2019 season.

**Chemistry Club** - I've started a chemistry club at my school that meets weekly to discuss topics and learn chemistry through demonstrations. Next year, we plan to create a bi-annual chemistry show and work to bring our demonstrations and lessons outside the school, possibly to local elementary schools.

**Massachusetts High School Esports League** - Founded a local Esports organization with a group of my peers. We organize and host independent tournaments for high schoolers all around Massachusetts on a monthly basis.

**WIQH Radio** - At the Concord Carlisle high school radio, I participate in both technology and production departments. Technology consists of reparative maintenance on much of the studio's equipment, including soldering and cable construction. In production, I host a weekly talk show that covers historical and current events in a comedic way.

**Quiz Bowl** - After school, I practice with the CCHS quiz bowl team in preparation for trivia competitions in subjects such as math, English, history, and the arts.

**Esports Club** - On Thursdays, I work with the Esports club in order to set up the equipment needed for the day, as well as overview and assist in the events of the meeting. I also help to set up and administer tournaments and various other events.

**Tedx** - I am on the planning committee for a TEDx conference to be held at Concord Carlisle High School in the spring, with a focus on youth making a difference in their communities. I work in a PR capacity, as well as video and community outreach material production.

**Teaching Assistant** - In the first semester of my junior year, I was a teaching assistant in a Spanish 2 class, where I created worksheets and other coursework, assisted struggling students, and helped with certain lessons.

## **Education**

**High School Diploma: Concord Carlisle High School** – Concord, MA

**High School GPA:** 4.00 weighted

**Bachelor's Degree:** University of Michigan – Ann Arbor, MI
